# GUARDIAN® JR WARNING LIGHT

CRACK-FREE CORNER DESIGN
Screws never come in contact with corner plastic, preventing cracking and moisture intrusion.
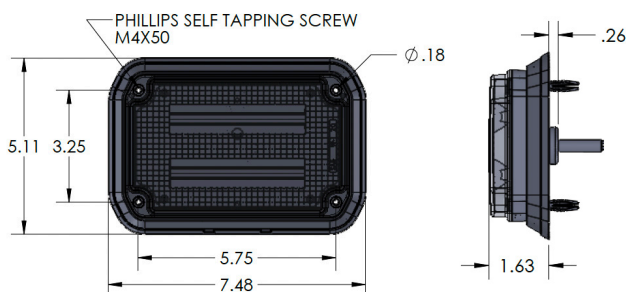

NITTO TEMISH VENT & ALUMINUM HEAT SYNC
The Nitto TEMISH Vent allows moisture to vent ensuring no unwanted condensation or water droplets trapped in the lens and the heat sync keeps the fixture from overheating.

THE ULTIMATE AMBULANCE WARNING LIGHT

After many years of requests, we're excited to unveil the ultimate ambulance warning light system! These fixtures are super durable and are the only fixtures in their class to feature a full sized aluminum heat sync. We know from our background in the fire space that overheated circuitry is the number one killer of LEDs in public safety vehicles and moisture intrusion is a close runner up. With the FireTech® Guardian Series of warning lights, you can rest assured we've goth both areas covered, and if we're wrong we will replace the fixture with our industry-leading advance exchange lifetime warranty.
